5 and 6 Units (90 minutes)

Development of a strategic plan: From theory to practice (work in small groups), experiential learning to combine the knowledge and skills acquired in the previous units.

- a) to give the maximum safety at work place
- b) to reach the maximum quality control and CCP
- c) to prevent and eliminate as much as possible the risks

It is advisable the strategic plan to be based on case studies coming from the learners. Learners can decide on the case in 3 groups taking in account that each will be with different background of learners.
